

3rd Annual Biosecurity Symposium
 'Global Health Security'
 1-2 February 2010

Provisional Program

Time	Speaker
9:30am	Keynote 1 Harvey Rubin – <i>An infectious disease compact</i>
10:30am	Morning Tea
11:00am	Panel 1 – Surveillance Tools for the 21st Century
	Peter Dawson et al. – <i>A Bio-Terrorism Attack, Detect to Treat System: Syndromic Surveillance in Australia</i>
	Bronwyn Morrish – <i>The Australian Biosecurity Intelligence Network</i>
	Joanna Gray – <i>RCPA Biosecurity Quality Assurance Program</i>
12:30pm	Lunch
1:30pm	Keynote 2 Stefan Elbe – <i>Ethics of Security in Global Health</i>
2:30pm	Panel 2 – Ethics of Infectious Disease Emergencies
	Andreas Reis – <i>Ethical considerations in pandemic influenza preparedness and response</i>
	Belinda Bennett et al. – <i>Swine Flu, Doctors and Pandemics: Is There a Duty to Treat in a Pandemic?</i>
3:30pm	Afternoon Tea
4:00pm	Panel 3 – Regional Perspectives
	JM Kurscheid et al. – <i>The influence of culture and religion in marketing and management practices of live poultry in Bali and Lombok</i>
	John Hall – <i>Measuring Health Security: building an evidence-base on emerging infectious disease in the Pacific</i>
	Adrian Gibbs et al. – <i>From where did the new pandemic influenza come?</i>
5:30pm	Close
Day Two	
9:30am	Keynote 3 Ray Zilinskas - <i>The Security Threat Presented by Producers of Illicit Botulinum Neurotoxin</i>
10:30am	Morning Tea
11:00am	Panel 4 –Governance of Science
	Bob Mathews – <i>The Roles of the Biological Weapons Convention in enhancing Biosecurity: Looking to and beyond the Seventh Review Conference in 2011</i>
	Emmanuelle Tuerlings - <i>Responsible life science research for global health security</i>
	Letitia Toms and Gary Lum – <i>The regulation of security sensitive biological agents in Australia</i>
12:30pm	Lunch
1:15pm	Panel 5 - Biosecurity Policy Decisions in an Economic Context
	Adam Henschke – <i>Biobricks: BioRisk, Intellectual Property and Open Source</i>
	Nick Evans – <i>Synthetic Biology and Freedom of Speech</i>
	Peta Cook – <i>Contagion or Cure? Regulating Xenotransplantation</i>
2:45pm	Afternoon Tea
3:00pm	Panel 6 – The Emergence of New Diseases
	Tom Kompas – <i>The Economics of Biosecurity: Risk, Border Quarantine, Local Surveillance and Containment Measures</i>
	SJ Wilson et al. - <i>A framework for evaluating the decision making processes related to the development of animal health emergency plans and policy in Australia</i>
	Marta Hernandez-Jover et al. – <i>Assessment of the health risks of a West Nile virus outbreak in Australia and the optimal surveillance for mitigating these risks</i>
4:45pm	Close
